

AKA Application
Product Testing

This application makes provision for product testing on AKA licensed circuits. Such items would include tyres / engines / product that are not currently an officially AKA approved item. Approval of such non-competitive testing provides the benefits of AKA Insurance, however use of AKA circuits by the applicant/s at all times requires compliance with Kart Formula and the adherence with current regulations in relation to safety.

The details of this application must be completed and forwarded to the National AKA Office with the required application fee of \$ 175.00 (incl. GST) at least 7 days prior to the proposed date of track use – a copy of this application with AKA stamp and authorization serves as official approval to conduct the product evaluation noted.

Liaison with club owners / management and track fee is the responsibility of the applicant

Product evaluations under this application does not in any way offer or imply that the AKA has officially approved the product being tested.

Name of Applicant:	
Purpose of test:	
Product/s under evaluation: <i>(eg: tyre - engine – other (specify)</i>	
<u>Proposed AKA Circuit/s</u>	
Date/s Proposed:	
Proposed Driver (s)
